

5th September 2025

**Media statement:
MultiChoice sets the record straight on DStv pricing**

We have noted the statement made by the Minister for Communications Technology and Innovation, Hon. Samuel Nartey George.

We continue to engage with the Minister in a bid to find an amicable solution that is beneficial for all parties involved but does not jeopardise the viability of the DStv service.

We will fully participate in the established Working Committee. However, we wish to clarify that MultiChoice Group has not agreed to a price reduction.

ENDS
